DATA SCIENCE INTERN • DATAMITES • KUDLU GATE • BENGALURU

Good day Sir/Mam,

This is Chandran S. I'm looking for an opportunity in Data Science and Machine learning related fields. I've 6 months experience as a Data Science intern at Data mites and working with the techniques like python, machine learning algorithms like linear regression, logistic regression, SVM, K-NN, K-Means clustering, hierarchical clustering, decision tree, bagging, boosting, stacking, time series, naive bayes, PCA, Deep Learning techniques like ANN, CNN, RNN, LSTM, NLP, Data visualization in Matplotlib, Seaborn, I know basics of Tableau and Power BI, SQL, Deployment(Flask), NumPy, pandas and I also done some project using these all techniques that I mentioned in my resume. I promise that I will work sincerely for company growth and at the same time for my growth also. I hope your company will give me an opportunity to work with you. For your reference I attach my resume link below this cover letter.
